

The college has 2 sessions a day an AM and PM session. When a student is absent for 1 day it will appear as 2 authorised or unauthorised absences due to AM and PM session each day.

We have developed an average expected target grade labelled 3-8 based on student's prior attainment (CATs and Scaled Scores). The number represents the minimum average grade a student should be aiming for across their subjects when they sit their GCSE exams in Year 11.

Working at Grade (WAG) is entered by the subject teacher. The numbers are based on grades (8-1). A "W" shows they are working towards Grade 1. Subgrades of -/=/+ are used to show where on the range the student is currently.

Note: At certain points of the academic year, an EEG (Estimate End Grade) may be included on student reports. This will outline a grade that teachers expect their students to achieve at the end of year 11, based on their performance in exams

Target Grade is the end of Year 11 target for each subject.

St Benedict's Catholic College Report

Reporting Explained Year 10 - 11

Attendance %	%	Authorised absence	Authorised Absences	Unauthorised absence	Unauthorised Absences	Despite home learning extension, work still not complete	Result
The minimum target for attendance is 97%. Studies have shown that any student with attendance below 97% may not make expected progress.							

The average expected target grade is 7.5. The minimum target for attendance is 97%. Studies have shown that any student with attendance below 97% may not make expected progress.

Subject	Target Grade	Working at Grade (WAG)	Estimated End Grade (EEG)	Attitude to Learning (AtL)
Subject	7	4-	5	4
Subject	6	5	6	1
Subject	7	5	6-	1
Subject	6	7	8	1
Subject	6	44	54	1
Subject	7	5	6	1
Subject	6	4+	5	3
Subject	6	6-	6	1
Subject	6	4-	4	2
Subject	N/A	N/A	N/A	1

Attitude to Learning (AtL) is assessed by teachers on student's engagement in lessons and home learning.

1 – Highly motivated Learner
2 – Engaged Learner
3 – Passive Learner
4 – Disengaged Learner

Please see the descriptors for further information

The closer the score is to '1' the better the AtL for the student.

1.0 is the highest score possible.
4.0 is the lowest score possible.

This allows comparison of your child's average AtL compared to their peers.

In this example, the student is scored 1.66 for AtL. The year group average is 1.76, therefore the student's AtL is +0.1 better than their peers, on average.

The college hold a parents evening for teachers to discuss progress with parents/carers.
